

MILTECH™ 304

Compact, Portable Military Fast Ethernet Switch

Driven by rapid advancement and lower costs, Ethernet is becoming the standard for IP-based components in a wide range of military and commercial land, sea, and air applications.

The MILTECH304's ultra-compact, IP68 rugged construction, and Fast Ethernet make it the ideal switching solution for command post, man packable and UAV systems. Its four 10/100Mbps ports are plug-n-play with all Ethernet equipment and provide network connectivity for most portable Ethernet devices, including:

- Helmet-mounted heads-up displays
- Computers
- Navigation devices
- Communications systems
- IP-based sensors

With the best combination of size, weight, power and cost (SWaP-C) in the industry, the MILTECH304 reduces load on the soldier, providing more space for equipment that increases effectiveness and survivability.

The MILTECH304 operates on readily available 5VDC power and may easily be powered from computers and other devices with USB ports. The MILTECH's mechanical packaging enhancements, including ruggedized SCE2 circular connectors, is designed for MIL-STD-810F airborne and ground environmental compliance and high reliability. Leveraging best-in-class switching technology, the MILTECH 304 serves as a robust commercial off-the-shelf (COTS) solution for rugged LAN connectivity.

SPECIFICATIONS

ETHERNET PORTS	<ul style="list-style-type: none"> • 4 x switched 10/100 (Fast Ethernet) ports
NETWORKING	<ul style="list-style-type: none"> • Full wire-speed forwarding rate • Store-and-forward mechanism • Auto MDI-II, MDI-X • Auto-Negotiation Protocol • Address Look-Up
CONNECTORS	<ul style="list-style-type: none"> • Power Connector: SCE2-B-76A06-075N-001 • LAN Connector: SCE2-B-76A06-075N-001 • LED Indication Per Port (Link/Activity)
CHASSIS	<ul style="list-style-type: none"> • Machined rugged aluminum • Conductively cooled w/custom internal heat-sinks • Ingress protection against sand, dust and moisture • Anodize Coating, MIL-A-8625, Type II, Class 2
STANDARDS	<ul style="list-style-type: none"> • MILSTD-461E, MILSTD-810F/G/GM, IP68
PERFORMANCE	<ul style="list-style-type: none"> • 128K Byte of SRAM for Frame Buffering • 2.0Gbps High-Performance Memory Bandwidth • Wire-Speed Reception and Transmission
